PROFESSIONAL SUMMARY

Information Systems graduate with hands-on experience in full-stack web development, IT support, and business system development. Skilled in PHP, MySQL, React, database design, and developing systems for payroll, employee management, receivables, and transaction tracking. Experienced in translating business and administrative workflows into functional, user-friendly software while supporting day-to-day IT operations and system maintenance.

EDUCATION

West Visayas State University — Iloilo City, Philippines

August 2025

Bachelor of Science in Information Systems, Major in Business Application Development

WORK EXPERIENCE

Multipliers Corp. & Meritoni Corp.

January 2026 – Present

IT Specialist — Red Spaces *Dunggon B, Iloilo City, Philippines*

- Provided IT support, troubleshooting, and technical assistance for internal operations.
- Developed and maintained a Payroll and Employee Management System using PHP, JavaScript, MySQL, and web technologies.
- Automated payroll calculations, employee data management, and report generation.
- Supported HR processes through system development, maintenance, and process automation.

PROJECTS

Payroll and Employee Management System

- Developed a system to streamline HR processes during an internship, automating payroll calculations, managing employee data, and generating reports to improve departmental workflow.

Capstone Project: CSO Accreditation and Performance Evaluation System — Department of Agriculture Region 6

- Built a web-based system to streamline the accreditation and performance evaluation process for Civil Society Organizations (CSOs), centralizing document management, project monitoring, and performance ranking to improve efficiency, transparency, and communication.

Medrep — Daily Transaction & Cash-Out Management System

- Developed a PHP/MySQL web application to track daily medrep transactions, including deposits, cash-outs, and inter-employee transfers, with searchable records and monthly summary reporting.

Service Charge System

- Developed a system to manage and track service charge distribution.

Accounting System

- Developed a system to support core accounting and record-keeping functions.

TECHNICAL SKILLS

- **Programming Languages:** PHP, JavaScript, TypeScript, HTML, CSS, SQL
- **Databases:** MySQL, PostgreSQL, Supabase
- **Software & Tools:** Microsoft Office, Visual Studio Code, Git, GitHub, Vercel, Hostinger
- **UX/UI Design:** User-friendly interface design focused on usability, functionality, and responsive layouts
